Summary

Experienced Software Developer with proven ability to lead and contribute to complex projects from concept to completion. Skilled in translating project requirements into innovative and efficient solutions, optimizing code quality, and enhancing user experiences. Adept at leveraging cutting-edge technologies like Angular and React to deliver high-performance applications. Strong collaborator with a talent for fostering cross-functional teamwork, driving continuous improvement, and ensuring timely delivery of client-centric solutions. Passionate about problem-solving and committed to maintaining the highest standards of software development

Skills

- **Technologies:** Angular, TypeScript, ReactJS, JavaScript, SASS/CSS, HTML
- **Tools:** Figma, VS Code, Git
- **Operating Systems:** macOS, Linux, Windows

Experience

Senior Software Engineer

Truminds Software Systems / Gurgaon, Haryana
Aug 2021 - Present

- **Led Front-End Development:** Managed front-end teams across diverse projects, including IoT Connectivity, MIS, and Telecom Services.
- **Client Engagement:** Actively collaborated with clients to understand and implement feature enhancements, ensuring client satisfaction.
- **Technical Leadership:** Directed technical design discussions, formulating effective solution strategies.
- **Portal Redesigns:** Orchestrated successful portal redesigns, implementing client-approved designs for improved user experience.
- **Feature Integration:** Seamlessly integrated new features using Angular and React, aligning with client requirements.
- **Design Translation:** Converted client requirements into impactful Figma designs, providing clear guidance to development teams.
- **QA Collaboration:** Worked closely with the QA team to streamline testing procedures, ensuring smooth project delivery.
- **Issue Resolution:** Provided diligent support to clients and QA, resolving issues promptly to maintain project timelines.

Senior Software Engineer

IoT83 / Gurgaon, Haryana
Feb 2021 - July 2021

- **Front-End Migration:** Successfully migrated a ReactJS front-end portal to Angular, ensuring seamless functionality and performance.
- **Code Development:** Developed clean, readable code aligned with established design patterns and best practices.
- **Technical Ownership:** Led the technology and solution delivery for various product modules and components, ensuring high-quality outcomes.
- **Unit Testing:** Conducted thorough unit testing and reviewed team-written tests to ensure comprehensive coverage.
- **QA Collaboration:** Collaborated closely with the QA team to define and validate functional test cases, improving overall software quality.
- **Code Reviews:** Engaged in regular code review activities, maintaining a consistent and high-quality codebase.
- **Component Reusability:** Promoted and implemented component reusability strategies to enhance development efficiency and reduce redundancy.
- **Technical Leadership:** Actively participated in technical discussions, contributing ideas and presenting technical solutions.

Software Engineer

ProfEdge Solutions / Gurgaon, Haryana
June 2019 - Jan 2021

- **Task Orchestration:** Managed software development tasks, ensuring on-time delivery and strict adherence to project schedules.
- **Issue Resolution:** Troubleshooted and resolved localization issues, documenting solutions and handling customer cases effectively.
- **Technical Engagement:** Participated in code reviews, technical discussions, and whiteboard presentations, sharing technical ideas and solutions.

- **Debugging & Communication:** Analyzed and debugged technical issues, maintaining clear communication with customers and deployment teams.
- **Environment Management:** Managed multiple QA environments, coordinating efforts with deployment teams to ensure smooth transitions.
- **Feature Development:** Contributed by developing new features and providing ongoing support for existing functionalities.
- **Client Interaction:** Interacted directly with clients to understand and fulfill their requirements, ensuring satisfaction.
- **Application Re-Engineering:** Led the re-engineering of a Survey Platform application, migrating it from PHP to Angular.

Software Engineer

Arohar Technologies / Dehradun, Uttarakhand
Nov 2018 – Apr 2019

- **Cross-Project Collaboration:** Worked on multiple projects involving ASP .Net and AngularJS, contributing to diverse development tasks.
- **Bug Resolution:** Actively collaborated with the QA team to identify, track, and resolve bugs, ensuring product quality.
- **Timely Feature Delivery:** Ensured the timely delivery of features by coordinating closely with development and QA teams.

Education

Bachelor of Technology in Information Technology	2014 – 2018
Graphic Era Hill University, Dehradun, Uttarakhand
